California Natural Salmon Meal Formula HealthBars are specifically selected to be tasty, easy to digest and nutrient-rich, using Pure & Simple ingredients for dogs who cannot tolerate typical pet food ingredients. Made with limited key ingredients to minimize sensitivity issues, these treats contain rich sources of important fatty acids and added essential nutrients important for skin and coat health.

Salmon meal and herring oil are rich sources of long chain omega-3 fatty acids, while sunflower oil is rich in essential fatty acids and linoleic acid. The special balance of these important fatty acids in this all-natural treat help support a healthy coat and immune system. The large amount of salmon meal and the high-quality natural ingredients give California Natural Salmon Meal Formula HealthBars a superior taste that your customers and their pets will come to love and appreciate.
